

Let's do the wave

Let's do the wave~~~whoot whoot
Let's do the wave~~~whoot whoot

Our teacher posed a question in math today.
What pattern do you think a yellow dot would make.
The dot was placed on a tire and as it went 'round
what would happen if we plotted it on a line.

Let's do the wave~~~whoot whoot
Let's do the wave~~~whoot whoot

Before the task happened we estimated
Some thought it'd make a dotted line, others a loop.
We couldn't wait 'till the experiment happened
we'll tell you the results in just a second ...

Let's do the wave~~~whoot whoot
Let's do the wave~~~whoot whoot

Bridge (rap):
We estimated what the pattern would look like
(if a dot was on a tire)
I did the experiment and found A MATH WAVE!!!
(The bar graph showed the SAME WAVE!)
I measured a mouse running up a clock and discovered
(It was the SAME MATH WAVE!)
What does this look like??? "TWO M&M's!!!"

Let's do the wave~~~whoot whoot
Let's do the wave~~~whoot whoot

Our parents got involved in our math problem today
They wrote down what we said about our learning.
Joey shared that his class made a bar graph ,
that had a math wave on in.

Let's do the wave~~~whoot whoot
Let's do the wave~~~whoot whoot

Hey parents what did you learn from us?
We learned that in math there are some values
That repeat themselves over and over
It's like a cycle of the moon or ocean tides

Let's do the wave~~~whoot whoot
do the wave~~~whoot whoot
Let's do the wave~~~whoot whoot
do the wave~~~whoot whoot
~~~The math wave~~~
