

## INFINITY & FRACTIONS

Infinity is anything  
Infinity's ginormous  
But you can hold infinity  
You can trust us

There are no limits  
To the size of infinity  
It is really big  
Or tiny itty bitty

You hold Infinity  
In the palm of your hand  
Fractions go on forever  
They expand

CHORUS x2

**Half of a half of a half of a half**  
**It goes on forever**  
**Half of a half of a half of a half**  
**It makes you really clever**

Dividing up a square  
It never ever stops  
It is like counting  
All the raindrops

He explained  
That infinity's only one  
Patterns are everywhere,  
Math is really fun

CHORUS x2

**Half of a half of a half of a half**  
**It goes on forever**  
**Half of a half of a half of a half**  
**It makes you really clever**
